juliacon LOCAL PARIS 2025

October 2-3, 2025 | Paris, France

SPONSOR PROSPECTUS

In association with Julia's project fiscal host

NUMFOCUS
OPEN CODE = BETTER SCIENCE

Join us at JuliaCon Local Paris 2025! JuliaCon Local is a conference organized by the Julia programming language community, in collaboration with NumFOCUS. The conference will take place on October 2nd-3rd, 2025 in Paris, France, hosted by « Conservatoire national des arts et métiers » (downtown Paris).

JuliaCon Local Paris 2025 will feature two days of plenaries, talks, tutorials, posters, and hackathons sessions, covering topics from math, science, and software development.
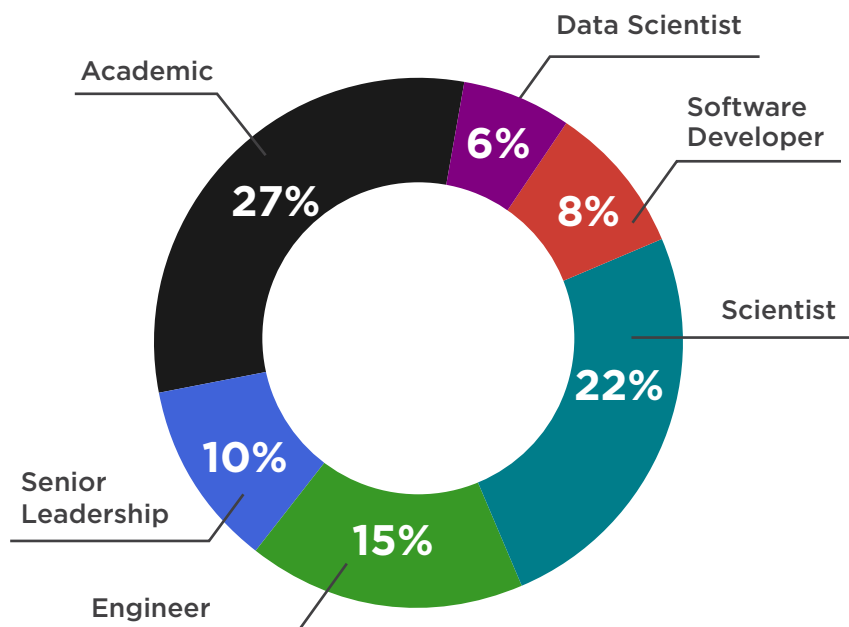

We are seeking sponsors for JuliaCon Local. As this is a volunteer-run, non-profit event, your sponsorship helps to cover the costs of hosting the conference, and supports community infrastructure for Julia development throughout the year.

By sponsoring JuliaCon Local, you will gain exposure to a highly engaged and skilled audience. You will have the opportunity to showcase your company and its products in an innovative environment and also to network with many technical professionals. Your sponsorship will directly contribute to the growth and success of an amazing open-source project. The Julia community consists of researchers, scientists, engineers, economists, and many technical professionals who seek to solve complex problems across a number of fields.

Frequent Topics

- Biology, bioinformatics, health, medicine, and health disparities
- Data analytics and visualization
- Finance and economics
- General computing
- Industrial applications
- Julia's compiler, tooling, and ecosystem
- Numerical and mathematical optimization
- Scientific computing
- Computational physics/chemistry
- Software for quantum computation
- Software engineering best practices
- Statistics, machine learning, and AI
- Computational humanities and social science

Who attends

- Academic 27%
- Data Scientist 6%
- Software Developer 8%
- Scientist 22%
- Engineer 15%
- Senior Leadership 10%

Benefits of Sponsoring JuliaCon

BRANDING:
Invest in your brand equity by supporting the community
of developers and open-source maintainers

TALENT ATTRACTION:
Connect with engineers, analysts, and data scientists
at the forefront of data science

THOUGHT LEADERSHIP:
Showcase your company's leadership and innovation chops
in front of the brightest minds in the business

SUPPORT DIVERSITY:
Demonstrate your company's commitment to diversity by
sponsoring attendance opportunities for underrepresented talent

The diversity of our community is important to us. Every year, a significant portion of our budget is dedicated to providing financial assistance to people from underrepresented geographies and demographics to contribute to Julia.

These grants enable life-changing experiences for some. Below are a selection of testimonies from our awardees. Your sponsorship makes all this possible.

"Without the financial assistance, I would not have been able to attend. I am so thankful for the aid that I received. I learned a lot and was exposed to new developments in Julia at JuliaCon. This was truly a wonderful experience and I hope to continue to be involved in the future!"

"JuliaCon 2019 was the first conference I attended outside my country. During the conference, I met students, professors, researchers and developers. Each one of these interactions was extremely important for me, because as a Ph.D. student I am constantly looking for people with whom I can work and do research with in the future... With this conference I realized the importance of Open Source: everyone had a GitHub account there; before this event, I had never met a person with a GitHub account."

Sponsorship Levels

	PLATINUM	GOLD	SILVER
	€2 000	**€1 000**	**€500**
Logo on Event Website	✓	✓	✓
Promo materials inside goody bag	✓	✓	✓
Job Board Listing	✓	✓	✓
Expo Booth (at least one of the two days)	✓	✓	--
Sponsor Talk before a Parallel Session	--	10 min	--
Sponsor Talk before a Plenary Session	10 min	--	--
Premium Logo Placement (Largest Logo)	✓	--	--
Free Conference Tickets	2	1	--
33% Discounted Tickets	3	2	1

Custom sponsorship deals are also possible, please reach out to the organising committee if you wish to discuss terms.

Sponsor Benefits FAQs

What is included with an Expo Table?
Unless communicated differently, an expo booth is a table and chairs, plus Wi-Fi. Sponsor booths are integrated into common areas where they will attract attendee traffic. Sponsors are responsible for shipping charges to and from the conference. Expo booths are available for **Platinum** and **Gold** sponsors.

What is Premium Logo Placement
Platinum sponsor logos receive preferential treatment on all logo-related benefits (top line, centered, or first; larger than others). Includes the opportunity to place your company logo on attendee badges.

Do Sponsor Talks Go Through the Regular Review Process?
Sponsors are able to present a talk at the event. While sponsor talks do not go through the regular review process, presentation proposals must be submitted for approval by the review committee. The committee will help ensure that your presentation's content is appropriate and relevant to the audience at the event.

What is the difference between a sponsor talk before a plenary session and before a parallel session?
A talk before a parallel session occurs in a room that accommodates half of the attendees during parallel track sessions.

The plenary talks occur in a large auditorium with the entire conference in attendance. There are no other parallel tracks running concurrently with the plenary sessions. Talking before a plenary session will maximize your exposure and captivate the audience.

What is the Job Board?
Your company's job listings will be published on the event website and emailed out to all event attendees. **All JuliaCon Local Paris 2025 sponsors** have access to the job board. Limit 5 job listings per sponsor.

What is a Diversity Scholarship?
One of JuliaCon Local Paris's goals is to increase awareness and excitement around opportunities for underrepresented groups in software engineering and data analytics. To that end, we make a number of diversity scholarships available at each JuliaCon event. These scholarships provide free registration to attendees 1) who could not otherwise afford to attend the conference and 2) whose participation would contribute to the diversity of the event. **All JuliaCon Local Paris 2025 sponsors** have at least one diversity scholarship awarded in their name.

Past JuliaCon and JuliaCon Local Sponsors Include

JuliaCon Global and JuliaCon Local are a series of international conferences running since 2014. The global conference has been hosted in Chicago (2014), Boston (2015, 2016, 2023), Berkeley (2017), London (2018), Baltimore (2019), online (2020, 2021, 2022), Eindhoven (2024) and soon Pittsburgh (2025). The local conference was hosted for the first time in Eindhoven in 2023, and the upcoming edition is Paris 2025.

Past « Julia and Optimization Days » Sponsors

In France, the Julia community is particularly vibrant with the « Julia and Optimization Days », a scientific event previously organized in Nantes (2019), Paris (2023) and Toulouse (2024). This was made possible by support from the following sponsors:
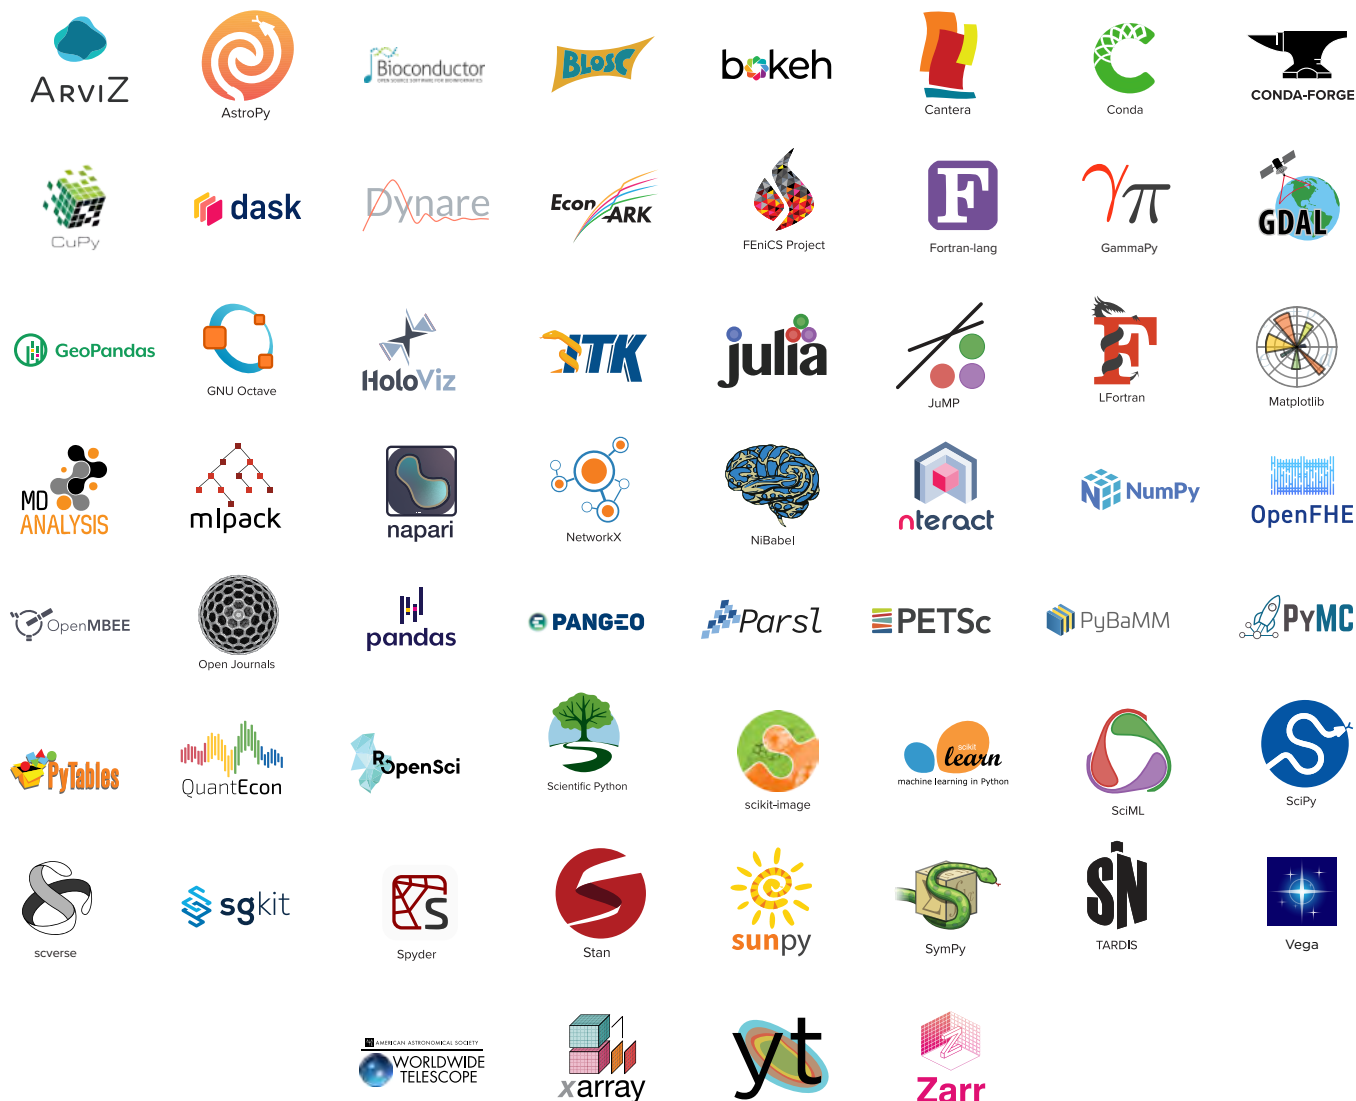

Sponsoring the Open Source Community

All proceeds from JuliaCon Local Paris go to support NumFOCUS, whose mission is to promote open practices in research, data, and scientific computing. NumFOCUS accomplishes its mission by sponsoring open source software projects and organizing educational programs, events and initiatives in collaboration with the community.

About NumFOCUS
The mission of NumFOCUS is to promote sustainable high-level programming languages, open code development, and reproducible scientific research. We accomplish this mission through our educational programs and events as well as through fiscal sponsorship of open-source scientific computing projects. We aim to increase collaboration and communication within the data science and scientific computing community.
